- ☞ За да кажем, че някой притежава нещо, употребяваме **have got** или **has got**.
Употребяваме **has got** само с **he, she** и **it**, например:
I have got a pet. She has got a cat. It has got a long tail.
- ☞ За да зададем въпрос, поставяме **have** или **has** отпреди, например:
Have you got a pet? Has she got a cat? Has it got a long tail?
- ☞ За да образуваме отрицателна форма, поставяме **not** между **have/has** и **got**,
например: **have not got/has not got**
Кратките форми са: **haven't got** и **hasn't got**, например:
I haven't got a pet. He hasn't got a cat.
